Receiving prescription medication outside the United States

Why do I need to think about my prescription medication before I leave?

These laws may include limits, exclusions of some medications, and even restrictions on forms of medications, such as powders or liquids which may not be allowed to enter the country. Outside your home country, you may also

find that certain medications are not available locally, dosages may differ and the level of safety and oversight of medications can vary. Simply put, you may not be able to receive the medication you need. If you have any questions or concerns about travel restrictions or the availability of a prescription medication, you can call us at the phone number on your Cigna ID card.

Are there steps I can take to receive assistance before I leave?

Yes. There are different steps to take depending on whether or not you have received a Cigna ID card.

Filling your prescription with a traditional pharmacy

Can I fill my prescriptions at retail pharmacies in the United States?

Your pharmacy plan is an important part of your overall health care benefits package. It works together with your medical coverage to help keep you healthy. We offer a U.S. pharmacy network made up of approximately 67,000 retail pharmacies⁴ that offers you discounted prices on medications, saving you money on your prescriptions. You can also use Express Scripts Home Delivery Pharmacy to fill your maintenance medications. To see if your pharmacy is in Cigna's network, please log in to the Cigna Envoy® mobile app or website and search the provider network.

What are the benefits of visiting an in-network pharmacy?

Customers enjoy substantial discounts on both covered brand and generic medications when filled at in-network pharmacies. When you visit one of these pharmacies, you will only be responsible to pay your copay, coinsurance, and/or deductible, if applicable and Cigna will also pay the pharmacy directly for our portion of a covered purchase, which eliminates the need to file a claim.

Will I need to pay for my prescription medication when I visit an in-network pharmacy?

When you visit one of these pharmacies, we will also pay the pharmacy directly for our portion of a covered purchase, which eliminates the need to file a claim. You are only responsible for paying the remaining balance (deductible, copay and/or coinsurance) based on your specific plan benefits.

Should I transfer my prescriptions to an in-network pharmacy if my current pharmacy is not part of the Cigna pharmacy network?

Yes. You are encouraged to transfer your prescriptions to an in-network pharmacy. This allows us to pay the pharmacy directly for covered purchases and helps you keep your out-of-pocket costs as low as possible.

To transfer your prescriptions to an in-network pharmacy, please contact the pharmacy directly.

Are the medications I am taking covered?

It is always best to check before going to the Pharmacy to see if your medication is covered. Go to [Cigna.com/druglist](https://www.cigna.com/druglist) and select "Performance 3 Tier" from the medication list drop-down menu. Enter your prescription name to determine whether it is covered, the cost tier, if it requires Prior Authorization and if it is subject to Step Therapy. If your prescription is subject to Prior Authorization or Step Therapy, check your plan benefits for more information.

What is Prior Authorization?

Some medications on your drug list require prior authorization. This means that you need to get approval from Cigna to receive coverage under your employer's health plan. You can find medications that require prior authorization on **Cigna's Prescription Drug List** (select "Performance 3 Tier"). Just look for a (PA) next to the medication name. If your prescription is subject to Prior Authorization, check your plan benefits for details.

If you're taking one of these medications, your provider can ask Cigna to consider approving coverage of your medication. If you don't get approval, the medication may not be covered.

What is Step Therapy?

Step Therapy encourages you to try the most cost-effective and clinically appropriate medications available to treat your condition. Typically, these medications are generics or lower-cost brands. You need to try these first, before more expensive medications are approved for coverage. When you fill a prescription for a medication which has a higher cost, Cigna will send you and your provider a letter explaining what steps you need to take before you refill your medication. This may include trying a generic or lower-cost equivalent, or asking Cigna for authorization for coverage of your medication. At any time, if your provider feels a different medication isn't right for you due to medical reasons, he or she can request authorization for continued coverage of a medication. You can find medications that require Step Therapy on **Cigna's Prescription Drug List** (select "Performance 3 Tier"). Just look for a (ST) next to the medication name. Check your plan benefits for more information on if you are subject to Step Therapy.

We know questions about your medications can come up anytime and that's why we are available 24 hours a day, seven days a week to help you. Call us anytime using the phone number on your ID card or visit [CignaEnvoy.com](https://www.CignaEnvoy.com).
