Coverage will terminate: Year 7, Age 50 Year 27, Age 70 Year 57, Age 100*

Values will only be shown for durations during the premium paying period. The Cost Comparison Indexes are calculated using the minimum interest rate of 4% and maximum charges.

*At age 100, the death benefit will be equal to the cash value. At that time, the face amount of life insurance ends, the monthly expense charges for the cost of insurance will no longer be required and Prudential will no longer accept premium. Moreover, any additional provisions that may have been part of the Universal Life Coverage will also end.

For GUL, the current effective annual loan interest rate is 6% through 1/1/2026. The effective annual rate is set on January 1st. The current loan interest rate is currently 2% higher than Fixed Account interest rate and guaranteed to be no more than the Fixed Account interest rate plus 2%. Loan interest accrues daily and is payable in arrears on the earlier of the group contract anniversary and when you make a loan repayment.

Please Note: When the certificate is issued, you will be given a complete Certificate Summary, including cost data, which will be based on the benefits and premium of the certificate as issued; and that, following the receipt of the certificate and the Certificate Summary, there will be a period of not less than 30 days within which the member may return the certificate for an unconditional refund of the premium paid.

If it is impractical to provide any of the above items prior to the enrollment, they may be estimated in good faith or furnished as soon thereafter as practical prior to the delivery of the certificate. However, no enrollment shall be prevented or delayed because of any missing information on this form.
